Chimica Didactica Acta: Journal of Chemistry and Chemistry Education (CDA) is an open-access, peer-reviewed journal published twice a year, in June and December, by the Department of Chemistry Education, Universitas Syiah Kuala, Banda Aceh, Indonesia.

The journal presents research findings in the field of Chemistry and Chemistry Education. The detailed scope includes, but is not limited to: Organic Chemistry, Inorganic Chemistry, Analytical Chemistry, Biochemistry, Physical Chemistry, Applied Chemistry, Environmental Chemistry, Water Chemistry, Educational Chemistry, Chemistry Teaching Practices, Chemistry Learning Media, and Chemistry Labwork Report.

The journal offers a stimulating and informative range of research papers that expand and deepen theoretical understanding across all areas of Chemistry. It also includes practice and policy-based implications in the relevant contexts of chemistry.

CDA is abstracted and indexed by the following International and National Indexing databases:

- Directory of Open Access Journals (DOAJ)
- Science and Technology Index (Sinta)
- Google Scholar
- Directory of Open Access Scholarly Resources (ROAD)
- Information Matrix for the Analysis of Journals (MIAR)

CDA has been published since 2013 in two languages: Indonesian and English. Starting from Vol. 11 No. 1 in 2023 until the present, CDA exclusively publishes articles in English to reach a broader audience of readers and academics worldwide. We invite authors from around the globe to contribute by preparing manuscripts following the author guidelines. For further inquiries, do not hesitate to contact us via email at mnazar@fkip.usk.ac.id.

The current issue of CDA, vol. 13, no. 1, June 2025, published articles authored by researchers and Chemistry practitioners from 3 countries, including the United Kingdom, Seara Leone, and Indonesia, affiliated with over 12 different institutions.
