Jurnal Natural (JN) was published by the Faculty of Mathematics and Natural Sciences, Syiah Kuala University since 2001 in association with the professional association: IndoMS, HKI, PSI, HAGI. JN is an open access journal involving anonymous (blind peer-reviewed) reviewers partners. Since 2011, JN has been using the Open Journal System (OJS) in article processing. Until now JN is published three times a year, February, June and October. The manuscript published in JN is an original script that contributes to state-of-the-art and applications in the field of mathematics and science.

Jurnal Natural (JN) is entirely open access, with apply a publishing charges for authors. The review process is blind review and efficient.

Jurnal Natural (JN) is Nationally Accredited by Ministry of Research, Technology and Higher Education, Number 2/E/KPT/2019 (Sinta Category 3).

Peer Reviewers in this Volume:

Alia Rizki, *Biology Department, FMIPA, Universitas Syiah Kuala, Indonesia*
Muhammad Bahi, *Chemistry Department, FMIPA Universitas Syiah Kuala, Indonesia*
Nerdy, *Pharmacy Department, Academy of Pharmacy Yayasan Tenaga Pembangunan Arjuna Sumatra Utara Indonesia*
Triva Murtina Lubis, *Veterinary Science, Universitas Syiah Kuala, Indonesia*

TABLE OF CONTENTS

Some additional records to the inventory of dragonflies and damselflies (Odonata) in Andalas University's Limau Manis campus complex, Padang, West Sumatra MUHAMMAD NAZRI JANRA, HENRY HERWINA	1-5
Isolation and characterization of cellulose from rice husk waste and sawdust with chemical method RIZKI ANDALIA	6-9
Potential side effects of medicine on patients with tuberculosis fixed-dose combination in dr. Pirngadi Hospital, Medan EVA SARTIKA DASOPANG, FENNY HASANAH, IDA FAUZIAH, SALMAN SALMAN, TEDY KURNIAWAN BAKRI	10-14
Antithrombotic potential of ethanol extract from <i>Gardenia jasminoides</i> leaves planted in Aceh AZIZAH VONNA, NUZUL HIDAYATI, SURYAWATI SURYAWATI	15-19
The blood glucose lowering effect of Malaysian <i>Tinospora crispa</i> in rats SARAH FIRDAUSA, MAUNG MAUNG CHO, KHIN MAUNG MAUNG, NILAR AUNG, NORSIDAH KUZAIFAH, SURYAWATI SURYAWATI	20-23

AUTHOR GUIDELINES

Manuscripts must be original. By publishing only original reports, JN is committed to deterring plagiarism, including self-plagiarism. Note that all manuscripts may be screened during the submission or peer-review process.

Text. Manuscripts must be prepared using accepted word-processing software. Times new roman 10th, double coloums.

Tables. Tables may be prepared in Microsoft Word or Microsoft Excel and must be embedded in the word-processing file. Authors are asked to follow these guidelines:(1) Number tables consecutively using Arabic numerals. (2) Include a descriptive heading that explains the table. (3) Give footnotes a letter designation, and cite in the table by italic superscript letters, labeling sequentially by lines of the table.

Graphics. The preferred submission procedure is to embed graphic files in the word-processing document near the point where they should appear in the final publication. Separate graphic files may also be included with the submission package. Additional acceptable file formats for graphics are TIFF, PDF, or EPS (vector artwork). EPS files: For EPS files, all fonts should be converted to outlines or embedded in the graphic file. The document settings should be in RGB mode. EPS is preferred for line-art figures. TIFF files are preferred for photographs. A rule should not be placed around the graphic.

Colors. Choose colors that will allow all features to be clearly visible on white paper, and format in RGB color mode. The RGB requirements are essential for producing high-quality graphics within the published manuscript. Graphics submitted in CMYK may be used; however, the colors may not appear the same in the final output.

Naming and Numbering. Name your graphics Figure 1, Figure 2, etc. (Arabic numerals), consecutively, and for figures not embedded in the text, place a call-out in the main manuscript text where the graphic should be located. Boldface Arabic numerals should be used for numbering structures.

Lettering. Lettering should be 10 points, and lines should have ≥ 0.5 -point thickness at final printed size. Lettering and lines should be of uniform density. Size. Submit graphics at the required print publication size. At printed size, graphics must be 300 dpi for color art and images containing photographic material, 600 dpi for grayscale art, and 1200 dpi for black and white line art. The resolution requirements are essential for producing high-quality graphics within the published manuscript. Graphics submitted at lower resolutions may be used; however, graphics that do not meet stated resolution requirements may appear at a lower quality in the final output.

Titles, Abstrack, Footnotes, Captions, Legends. Schemes may have titles and footnotes. Figures must have captions. To save space, place legends for graphs within the main body of the graphic, whenever possible.

Acknowledgment. Include financial support, technical assistance, advice from colleagues, gifts, etc. Be precise and thorough when acknowledging funders, and include grant numbers where appropriate.

References. Compile all references together in a list at the end of the manuscript text. Many references will link directly to the cited article or other Web sites. It is crucial that authors verify the accuracy of references cited. Authors must reference all previous publications in which portions of the present work have appeared. Literature references should be numbered with Arabic numerals in the order of their first citation in the text and the corresponding superscripted numbers inserted at the appropriate locations in the text. References will be properly formatted during the technical editing and page formatting process. Articles accepted for publication should be cited as "in press"; the DOI should be given if the paper is published online only.
