Jurnal Natural (JN) was published by the Faculty of Mathematics and Natural Sciences, Syiah Kuala University since 2001 in association with the professional association: IndoMS, HKI, PSI, HAGI. JN is an open access journal involving anonymous (blind peer-reviewed) reviewers partners. Since 2011, JN has been using the Open Journal System (OJS) in article processing. Until now JN is published three times a year, February, June and October. The manuscript published in JN is an original script that contributes to state-of-the-art and applications in the field of mathematics and science.

Jurnal Natural (JN) is entirely open access, with apply a publishing charges for authors. The review process is blind review and efficient.

Jurnal Natural (JN) is Nationally Accredited by Ministry of Research and Technology/National Research and Innovation Agency, Number 148/M/KPT/2020 (Sinta Category 2). Additionally, Jurnal Natural has also been indexed in the Index Copernicus International (ICI) Journals Master List in 2019.

Peer Reviewers in this issue:

Agustiansyah, Department of Agrotechnology, Faculty of Agriculture, Universitas Lampung, Indonesia
Aidil Azhar, Vocational School, Bogor Agricultural University, Indonesia
Dewi Elfidasari, Biology (Biotechnology) Department, Universitas Al Azhar Indonesia
Hartati Oktarina, Plant Protection Department, Faculty of Agriculture, Universitas Syiah Kuala
Ismail Sulaiman, Faculty of Agriculture, Universitas Syiah Kuala, Indonesia
Mahdhivan Syafwan, Mathematics Department, FMIPA, Universitas Andalas, Indonesia
Mohamad Amin, Budidaya Perairan, Fakultas Pertanian, Universitas Sriwijaya
Muliadi Ramli, Chemistry Department, FMIPA, Universitas Syiah Kuala, Indonesia
Muhammad Iqhrammullah, Graduate School of Mathematics and Applied Sciences, Universitas Syiah Kuala, Indonesia
Nerdy Nerdy, Pharmacy Department, Academy of Pharmacy, Yayasan Tenaga Pembangunan Arjuna, Indonesia
Said Munzir, Mathematics Department, FMIPA, Universitas Syiah Kuala, Indonesia
Siti Aslamyah, Fishery and Marine Sciences Faculty, Universitas Hasanuddin
Siti Marwiyah, Plant Breeding Division, Agronomy Department, Faculty of Agriculture, IPB University
Sri Aprilia, Chemical Engineering Department, Faculty of Engineering, Universitas Syiah Kuala
Sutarman, Mathematics Department FMIPA, University of Sumatera Utara, Indonesia
Tri Maryono, Plant Pathology Department, Faculty of Agriculture, Universitas Lampung, Indonesia
Waltram Revelombola, Texas A&M AgriLife Research, College Station, USA
Zurnila Marli Kesuma, Statistics Department, FMIPA, Universitas Syiah Kuala, Indonesia

TABLE OF CONTENTS

Seed size selection from M ₃ mutant soybean offspring of Kipas Merah Bireun variety in Aceh province ZUYASNA, M. MUCLISH ADIE, EFENDI, ZURaida	1-6
Application of PLS-SEM in analyzing Mathematical Statistics II course online learning IZZATI RAHMI, MAHDHIVAN SYAFWAN, HAZMIRA YOZZA, IQBAL HAMONANGAN, FRILIANDA WULANDARI	7-16
Optimizing the gonadal performance of broodstock <i>Helostoma temminckii</i> with the addition of glutathione and vitamin E as enrichment ingredients in feed INDIRA FITRILIYANI, SISWANTO, LUCHAS	17-24
Potential of carbon storage and sequestration in the Heroes Park City Forest, Purworejo Regency, Central Java VIVI ASTUTI, INGGITA UTAMI, SRI WAHYUNINGSIH	25-30
Anatomical changes of <i>Ipomoea reptans</i> due to mercury uptake and accumulation in contaminant soil NITA TAUHIDA, ESSY HARNELLY, MUHAMMAD NASIR, MUHAMMAD BAH	31-35
Virulence of conidia <i>Beauveria bassiana</i> (Bals.) as a bioinsecticide against <i>Crocidolomia pavonana</i> (F.) (Lepidoptera: Pyralidae) on broccoli plants MUHAMMAD SAYUTHI, ALFIAN RUSDY, HASNAH, NAILA EVI AZAHRA	36-43
Influence of monomer concentration on the morphology, contact angle, water uptake, and antibacterial activity of grafted cellulose obtained from peel durian ROSLIANA LUBIS, SAISA	44-50
Optimization of fuzzy entropy on solar panel's motor MUHAMMAD IKHWAN, MARWAN RAMLI, MARDLIJAH	51-56
Anticancer activity and apoptotic induction of <i>Chromolaena odorata</i> Linn leaves extract and fractions on hepatocellular carcinoma cell lines (HepG2) HANIFAH YUSUF, MARHAMI FAHRIANI	57-67

AUTHOR GUIDELINES

Manuscripts must be original. By publishing only original reports, JN is committed to deterring plagiarism, including self-plagiarism. Note that all manuscripts may be screened during the submission or peer-review process.

Text. Manuscripts must be prepared using accepted word-processing software. Times new roman 10th, double coloums.

Tables. Tables may be prepared in Microsoft Word or Microsoft Excel and must be embedded in the word-processing file. Authors are asked to follow these guidelines:(1) Number tables consecutively using Arabic numerals. (2) Include a descriptive heading that explains the table. (3) Give footnotes a letter designation, and cite in the table by italic superscript letters, labeling sequentially by lines of the table.

Graphics. The preferred submission procedure is to embed graphic files in the word-processing document near the point where they should appear in the final publication. Separate graphic files may also be included with the submission package. Additional acceptable file formats for graphics are TIFF, PDF, or EPS (vector artwork). EPS files: For EPS files, all fonts should be converted to outlines or embedded in the graphic file. The document settings should be in RGB mode. EPS is preferred for line-art figures. TIFF files are preferred for photographs. A rule should not be placed around the graphic.

Colors. Choose colors that will allow all features to be clearly visible on white paper, and format in RGB color mode. The RGB requirements are essential for producing high-quality graphics within the published manuscript. Graphics submitted in CMYK may be used; however, the colors may not appear the same in the final output.

Naming and Numbering. Name your graphics Figure 1, Figure 2, etc. (Arabic numerals), consecutively, and for figures not embedded in the text, place a call-out in the main manuscript text where the graphic should be located. Boldface Arabic numerals should be used for numbering structures.

Lettering. Lettering should be 10 points, and lines should have ≥ 0.5 -point thickness at final printed size. Lettering and lines should be of uniform density. Size. Submit graphics at the required print publication size. At printed size, graphics must be 300 dpi for color art and images containing photographic material, 600 dpi for grayscale art, and 1200 dpi for black and white line art. The resolution requirements are essential for producing high-quality graphics within the published manuscript. Graphics submitted at lower resolutions may be used; however, graphics that do not meet stated resolution requirements may appear at a lower quality in the final output.

Titles, Abstrack, Footnotes, Captions, Legends. Schemes may have titles and footnotes. Figures must have captions. To save space, place legends for graphs within the main body of the graphic, whenever possible.

Acknowledgment. Include financial support, technical assistance, advice from colleagues, gifts, etc. Be precise and thorough when acknowledging funders and include grant numbers where appropriate.

References. Compile all references together in a list at the end of the manuscript text. Many references will link directly to the cited article or other Web sites. It is crucial that authors verify the accuracy of references cited. Authors must reference all previous publications in which portions of the present work have appeared. Literature references should be numbered with Arabic numerals in the order of their first citation in the text and the corresponding superscripted numbers inserted at the appropriate locations in the text. References will be properly formatted during the technical editing and page formatting process. Articles accepted for publication should be cited as "in press"; the DOI should be given if the paper is published online only.
